

CEO Roundtable

Program Details

The CEO Roundtable is a peer advisory forum for senior executives, board members and founders of technology companies to openly discuss their challenges in a confidential, safe environment. The goal of the roundtables are to provide “just-in-time” advice on current issues, to enhance accountability and to accelerate actions and decisions. An experienced facilitator leads the process.

Format

- A monthly one-on-one meeting with the facilitator (1 hour)
- A monthly meeting for the full roundtable group (4 hours)
- Other action steps

Structured sessions for the full group are determined by the outcomes of the one-on-one sessions. Members learn to use several issue resolution formats, such as the “clarifying question” approach. The format to present an issue to the group is:

- Presentation of the issue: capital, strategy, product, people issues, etc.
- Clarifying questions are asked by the members
- Opinions and suggestions are provided by the members
- You summarize and action the discussion

Facilitator Expectations for Members

- Confidentiality
- Regular and consistent attendance
- Willingness to share strategies and financials with the member group
- Transparency, accountability and engagement
- Assist other members during and between members
- Track the top three business issues
- Bring issues to the member group

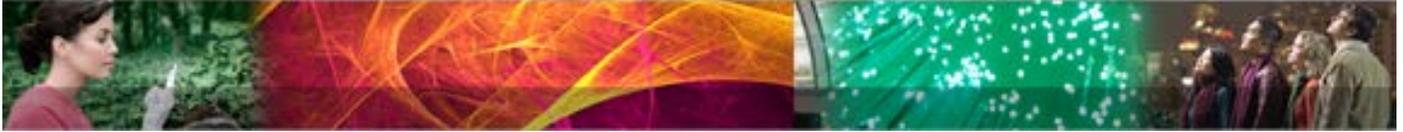

Resources

- [LinkedIN group for private discussions](#)

Cost - \$300/400 month

CEO Roundtable

Testimonials

*“The CEORT at Innovate Calgary has transformed our company. Period. There are really not enough good things I could say about the group. Even banks recognize its significance toward the foundation for a strong company. The amount of tangible, executable business knowledge I have learned at the CEORT is nothing short of awesome. I have been connected to amazing people who happily share their wealth of their experience and are eager to help. Bottom line is that being engaged with great people, with great ideas, running great businesses who have real problems and can share them openly will propel your business forward to new and exciting places you haven’t imagined!” – **Jeremy Bridge***

*“As an entrepreneur, you often question yourself about key business decisions and strategies, and wonder what others might do in similar situations. The CEO Roundtable provides a sounding board of people who can offer a different perspective; and either validate or challenge your decisions. As the President and CEO of an established HCM Software company, I have received valuable feedback and have been connected with the resources necessary to take our established company to the next level in today’s ever changing and challenging business world.” – **Stephen Habel***
